

INDUSTRIAL POWERED M CLASS DUST EXTRACTOR

CODE

DE-40M

BARCODE

9315778018982

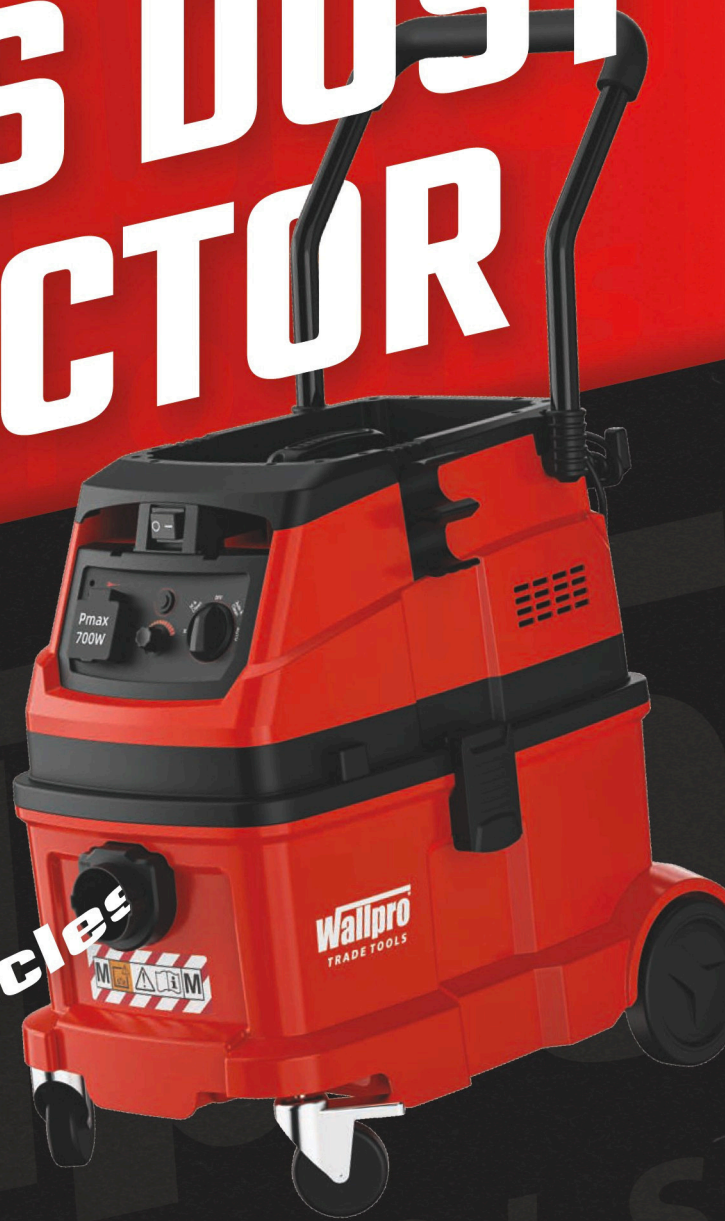

DESCRIPTION

M Class Dust
Extractor 40L

99.9% of dust particles

Wallpro's DE-40M M Class Dust Extractor is designed for industrial performance, capturing up to 99.9% of dust particles. Its high-efficiency 1600W motor delivers powerful, consistent suction, with variable control to handle any application.

Designed for reliability and safety, the automatic filter cleaning system maintains peak airflow, while the integrated air flow sensor provides visual warning alerts to keep performance in check. The 700W power tool take-off socket allows seamless connection to sanders and other tools, with automatic start/stop functionality for added control and efficiency.

With many other great features like M Class integrated filter cartridge, filter cleaning button, air flow sensor and on-board accessory storage this vacuum sets the standard for quality dust extraction.

- INCLUDED:**
- M Class Dust Bag
 - Disposable Dust Bag
 - High Efficiency Integrated M Class Cartridge Filter
