

EDMAPLAC MEGA BOARD LIFTER

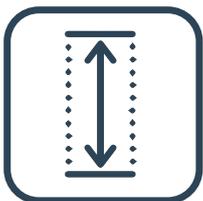

The Edmaplac Mega Board Lifter is designed to lift plasterboard in every position : horizontal (ceiling installation), angled (raked ceiling installation) and vertical (wall installation).

It has an innovative braking system with 2 handles (main brake + safety brake) to lower the panel quickly under control. The automatic operation for lifting thanks to power drill assistance and rack and pinion system will lift plasterboard with less effort than other panel lifters.

CODE: PLM-4.5

BARCODE: 3476062674553

Lifts up to a
height of 4.5m

Max sheet size
1.2m x 6m

Max load
capacity
of 80kg
