**AUTO ON/OFF SWITCH**  
with Power Sander or other  
power tool

**M CLASS DUST EXTRACTION**  
captures a minimum 99.9% of dust  
particles

**UTILITY CARRYING HOOKS**  
are perfect for carrying hoses

**VARIABLE SUCTION  
POWER DIAL**  
for suction control

<b>Code</b>	<b>DE-38M</b>
<b>Barcode</b>	<b>9315778002585</b>
<b>Description</b>	<b>M Class Dust Extractor</b>
<b>Weight</b>	<b>9.0kg</b>

Wallpro's DE-38M Dust Extractor is approved for Dust Class M (medium risk dust). With an innovative push and clean filtration system it protects against the dangers of fine dust particles.

The 38 Litre dust extractor has advanced suction performance from the 1500 watt high efficiency single fan motor that provides reliable and efficient performance at an economical price to meet the tough requirements of extracting harmful dust particles on site. The coated stainless steel drum provides robust but lightweight maneuverability, perfect for long periods of use.

The crush resistant, anti-static hose and automatic stop/start function protect the user and allows for superior control when connected to a power tool. With many other great features like variable suction power dial, washable class M integrated filter cartridge, filter cleaning button, air flow sensor and on-board accessory storage this vacuum sets the standard for quality dust extraction.

**Included**

- Anti-Static Crevice Tool
- Floor Nozzle
- Disposable Bag x 5
- Anti-Static Round Brush
- Power Tool Adaptor
- Dust Bag x 5

**M Class  
Filtration**

**38 Litre  
Capacity**

**Powerful  
1500W Motor**

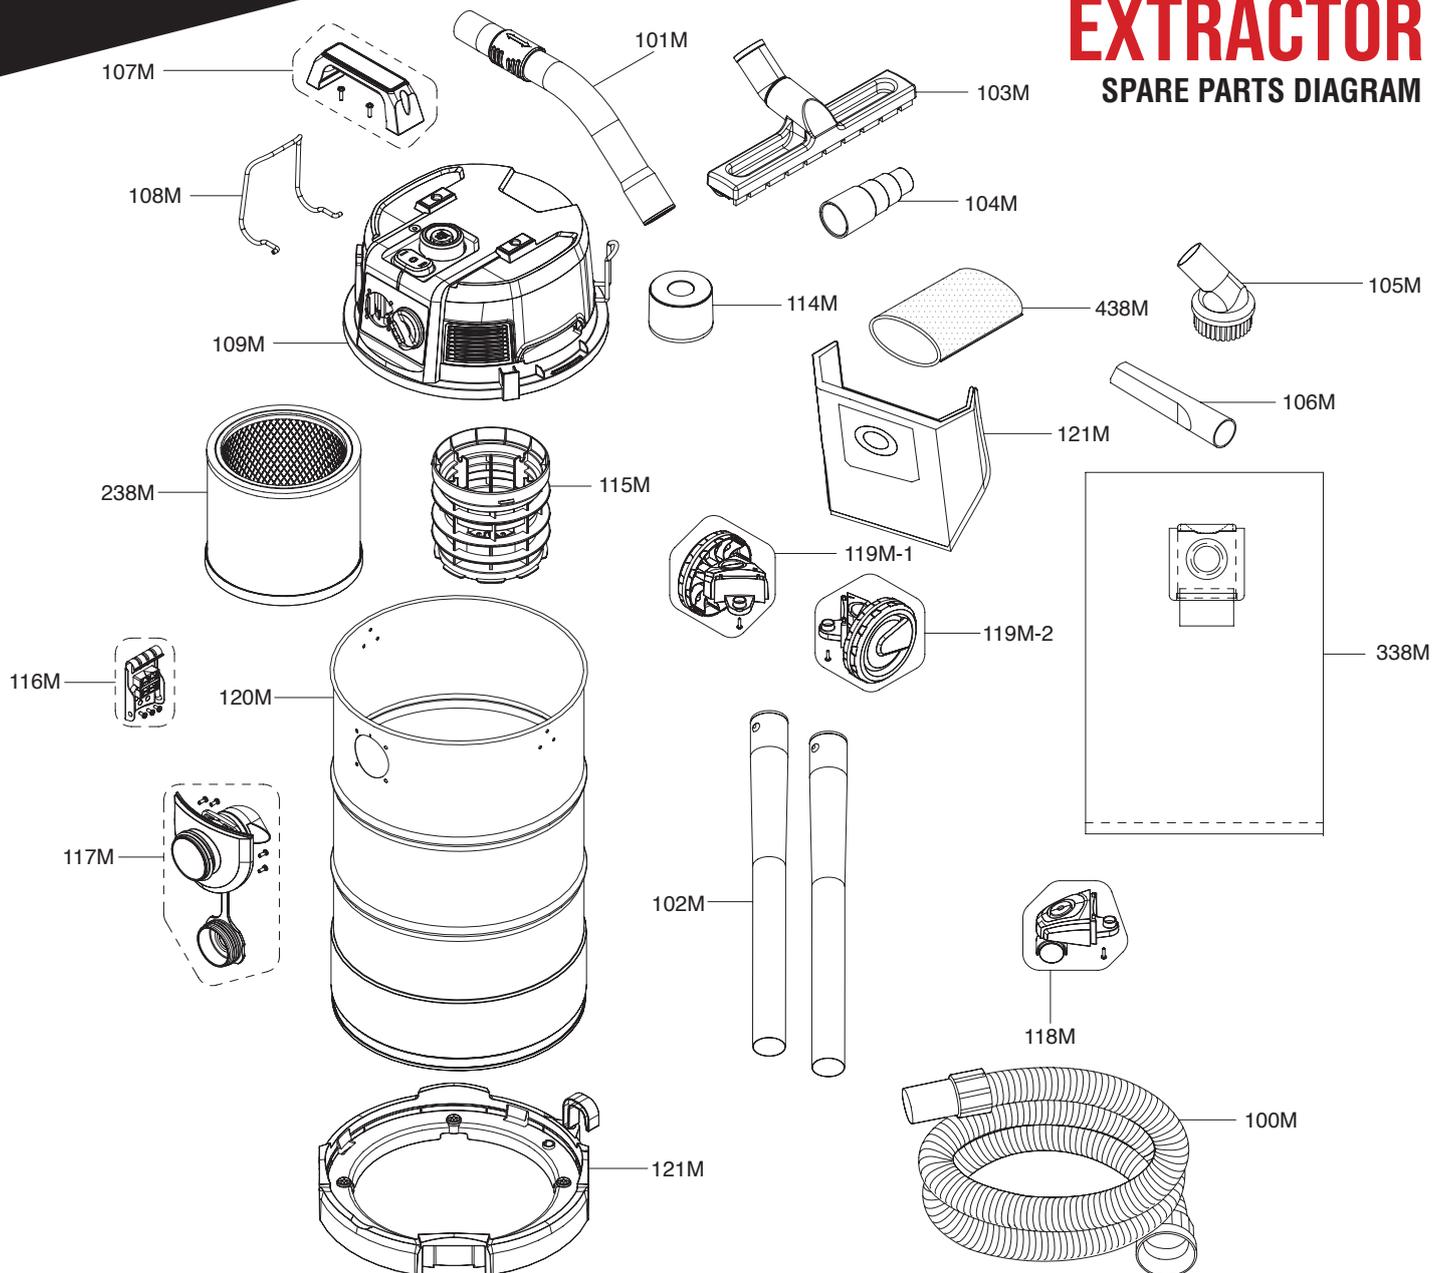

**Air Flow  
Sensor**

**Antistatic  
Hose**
