

Premium Corner Bead Spray Adhesive

# Trim-Tex 847au

The all-new Trim-Tex 847au Spray Adhesive.

Based on real trade feedback, Trim-Tex engineers have re-engineered and refined a spray specifically for the Australian market. Delivering faster tack, improved spray control and optimised cure time for uncompromising on-site performance.

## What's improved

### NEW SPRAY BOTTLE

The new 500ml size bottle features an **updated spray nozzle** for a controlled, even spray pattern. This reduces overspray, improves coverage, reduces waste and the size makes handling on site easier.

### IMPROVED CURE TIME

A faster setting time allows accurate placement without slowing the job, while delivering a secure, long-lasting bond once cured.

### SINGLE SPRAY INSTRUCTIONS

Optimised for trade use with a single-spray application. Spray once and you're done. Installation is faster, suitable for use on PVC and metal trims.

Product Code	72-847AU
Barcode	9315778019002
Carton Quantity	12

## What you can be assured of

### SUPERIOR TACK AND BOND STRENGTH

Fast, reliable tack with the strongest bond for PVC and metal trims, keeping products securely in place during installation.

### LOW VOC, TOLUENE-FREE

Engineered with advanced chemical formulation, this spray delivers low-VOC, toluene-free performance for a safer worksite.

### VIVID VISIBILITY AND CLEAN FINISH

Same as original spray adhesive ensures even application you can see while spraying and remaining non-bleeding through taping compounds or paint.
