

# Start to Finish with ONE FLAT BOX

With the 200mm to 140mm reducer plate for Tapepro 200mm Flat Boxes being such a huge success, three additional reducer plates are now available.

The RP-150 can be fitted to the Versatile T-150 Flat Box, reducing the applied width of compound to 75mm to use as a nail or screw spotter.

The other two reducer plates can be fitted to any Tapepro 250mm Flat Box. The RP-2514 reduces the applied width to 140mm while the RP-2520 reduces from 250mm to 200mm.

## One Box Solution

With the 250mm flat box and two reducer plates you can:

- ▶ fill the recess prior to hand taping (using RP-2514)
- ▶ fill and finish the recess after taping (using RP-2514)
- ▶ apply 200mm coat (using RP-2520)
- ▶ top coat 250mm (blade width 273mm)

**It's now easier than ever to start finishing with automatic finishing tools.**

Code	Barcode	Description
RP-150	9315778002455	Reducer Plate 150mm-75mm
