

EXTENDABLE DUAL HEADED LED WORK LIGHT

The **Extendable Dual Headed LED Work Light** is designed to meet a wide variety of lighting applications. Super bright, up to 5,000 lumens on high power, 1,500 lumens on medium power and 500 lumens on low power, it offers both bright white and daylight modes of operation for all three settings. It has two power options; rechargeable battery for outdoor/shorter duration use and corded for indoor/extended duration use. With multiple adjustment options, it can place light exactly where you need it. The tripod base fully extends to 196cm and folds compactly to just 89cm for convenient transportation and storage and features tough, lightweight aluminium construction. Includes two lithium ion rechargeable batteries and USB cable.

CAUTION:

Please read all instructions and warnings before operating!
SAVE THESE INSTRUCTIONS!

WARNING: To avoid serious injury or death from electrical shock or fire:

1. This light **MUST ALWAYS BE USED IN ACCORDANCE WITH ALL ELECTRICAL AND SAFETY CODES AND STANDARDS.**
2. **ALWAYS** make certain that the power source conforms to the rating on the light.
3. **DO NOT** inspect or service the light while charging.
4. **CAUTION: Keep light dry.** Do not open, drop, short-circuit, incinerate or expose to temperature higher than 60°C, or charge/use if damaged.
5. People with pacemakers should consult their physician(s) before use. Electromagnetic fields in close proximity to a heart pacemaker could cause pacemaker interference or pacemaker failure.
6. **NEVER** operate the light with the clear protective glass broken or removed.
7. **NEVER LOOK DIRECTLY INTO LIGHT SOURCE.** LED's are extremely bright and can damage eyes with prolonged exposure.
8. **KEEP AWAY** from heating vents, radiators, or other sources of heat.
9. **KEEP OUT OF REACH OF CHILDREN.**

LITHIUM BATTERY SAFETY WARNINGS

LITHIUM BATTERIES STORE A LARGE AMOUNT OF ENERGY AND COULD CAUSE FIRE OR EXPLODE IF MISUSED:

1. Keep work light dry.
2. **DO NOT DO ANY OF THE FOLLOWING TO THE BATTERY PACK:**
 - a. Drop
 - b. Open
 - c. Short-circuit
 - d. Puncture
 - e. Incinerate
 - f. Expose to temperatures greater than 60°C
3. Charge work light only according to these instructions.

LITHIUM BATTERY SAFETY WARNINGS

1. Press the lower power button to turn on the LED light to the lowest illumination setting of 500 lumens.
2. Press the lower power button again quickly, to brighten the light to the medium setting of 1,500 lumens.
3. Press the lower power button a third time quickly, for the full power of 5,000 Lumen LED lights.
4. Press lower power button a final time to turn the light off.

CORDED OPERATION

1. Press the lower power button to turn on the LED light to 2,300lm.
2. Press lower power button a final time to turn the light off.

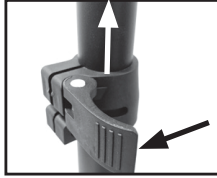

TO ALTERNATE BETWEEN BRIGHT WHITE LED AND DAYLIGHT LED

1. Press the lower Power button to your desired illumination level.
2. Press the upper lighting selection button to alternate between the Bright White LED light setting and the Daylight LED setting.

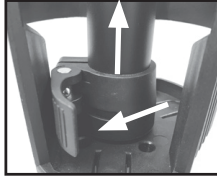

TRIPOD SETUP

1. Unlatch the top release lever to loosen. Slide the top portion to desired height and lock into place.
2. Unlatch the bottom release lever to loosen. Slide the bottom portion to desired height and lock into place.

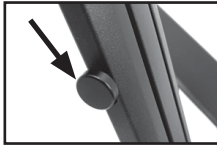

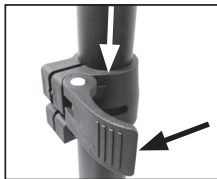

Tips & Tricks: If the latch is too loose or too tight, we have designed a standard Philips screw allowing you to slightly tighten or loosen the latch locking tension to your desired setting.

3. To setup legs, simply pull each of the three legs downward, until they automatically lock into place.

TRIPOD STORAGE

1. Unlatch the top release lever to loosen. Slide the top portion downwards fully closing the top portion of the unit.
2. Unlatch the bottom release lever to loosen. Slide the bottom portion downwards fully closing the bottom portion of the unit.
3. To fold up the legs, simply slide the release lever downwards to unlock the pin that is holding the leg in place. While sliding the release lever down, begin pulling up on the leg to fold it all the way upwards until snug.

Tips & Tricks: Our legs are designed for stability and you may need to gently pull up or down on the leg to align and disengage the locking pin. If you pull too hard the pin could be damaged and not align properly.

MAINTENANCE

Only qualified service personnel must perform repairs. Opening or visible attempts to open or repair the work light will void any warranty and/or cause damage to the product or personal injury.

CAUTION! Do not use solvents such as gasoline, turpentine, etc. to clean the unit. Aerosols and other chemicals will fog the clear polycarbonate lens.

BATTERY CHARGING

NOTE: Both lights must be charged together.

1. Connect the power cord adapter into the underside of the LED, where the pin adapter inserts.

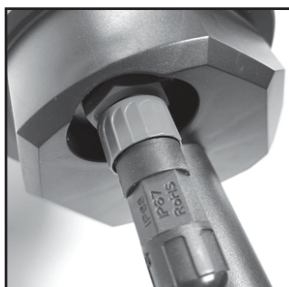

Tips & Tricks:

To Insert: You must fully insert the power cord adapter until you hear an audible click to let you know it is fully inserted.

To Remove: Turn the power cord adapter counterclockwise to unlock and remove from the unit.

2. Connect the plug end of the charger into an electric outlet.
3. AC/DC DUAL POWER MODE: The LED light will be fully operational as long as the power cord is plugged into the wall (even if the batteries are not charged).

Battery Charging Indicating:

4 blue lights on the unit will light up and blink as it is charging. When lights are fully lit, the unit is fully charged. Please unplug the adapter once fully charged.

WARNING! Charge while indoors only.

WARNING! Always use the 8.4v / 5A charging cable and adapter that came standard with your unit.

Using a non-compatible charger could cause damage to the work light or personal injury.

TRIPOD SETUP

LEDs.....	Two Illumination settings: (White & Daylight) SAMSUNG 2828 (White & Daylight)
Max. Brightness..... (Battery):	5,000 Lumens (High) 1,500 Lumens (Medium) 500 Lumens (Low)
Max. Brightness..... (Corded):	2,300 Lumens
Runtime:.....	1 hr. (High) / 2.5 hrs. (Medium) / 7hrs. (Low) by fully charged battery
Beam Distance:.....	90m (High) / 50m (Medium) / 25m (Low)
Battery Size:.....	Two rechargeable Lithium-Ion Batteries included; 7.4V 4000mAh
Functions 2 ways:.....	cordless with batteries and also works while plugged into a power outlet.
Charger:.....	8.4V / 5A Rechargeable
Charging Cable.....	Included
Charging time:.....	4.5 hrs (Charger: 8.4V / 5A)
Net Weight:.....	4.6kg
IP Rating:.....	IPX0
Tripod fully extends to	196cm and folds down to just 89cm.
