

NO-COAT® Structural Laminate Drywall Corner System

Whether finishing off-angles, archways, inside or outside corners, NO-COAT® offers a complete corner system for every job. And with NO-COAT tools and accessories, the application of NO-COAT corners is easier and more efficient.

SLAM® Technology - A Breakthrough in Drywall Corner Finishing

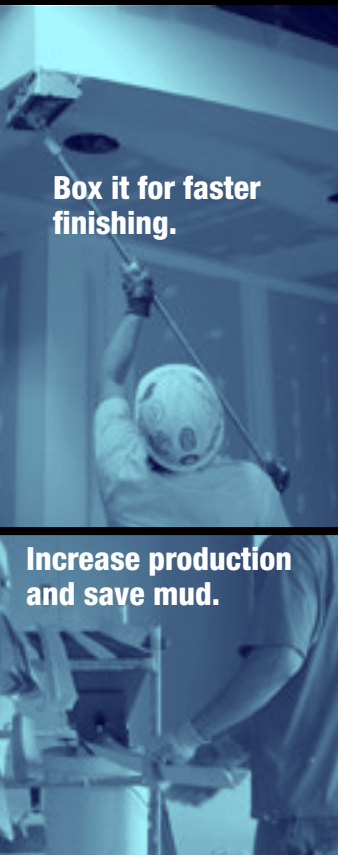

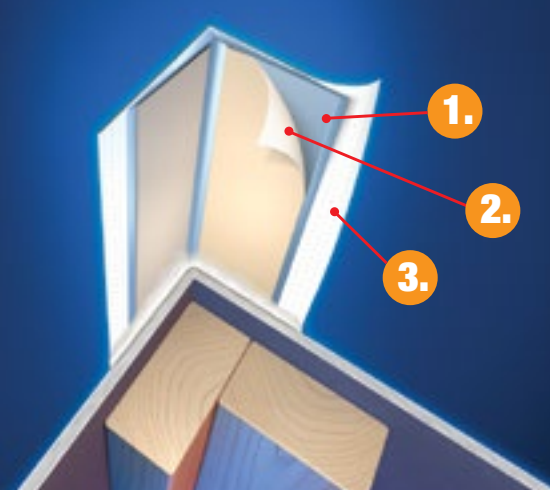

NO-COAT's Structural Laminate (SLAM) Corner System actually becomes part of the structure. SLAM Technology integrates three key components that deliver superior strength and durability, flexibility, faster installation and dramatic bottom line savings.

1. Tapered High Strength Co-polymer Core withstands severe impacts. Won't rust. Requires less mud.

2. Joint Tape permanently bonds corner to plasterboard with Base Compound.

3. Formulated Surface Paper reduces cracks, chips and peels, resists abrasion, and accepts any finish.

Box it for faster finishing.

Installs in record time.

Just mud it and roll it on - fast and easy.

"We saved an incredible amount of time and money by installing NO-COAT arch vs. stapling on plastic arch corner bead. We saved over 25% on mud per floor and over 50% on labor costs".

"I was very shocked, we're saving 50% of mud per floor and 20% on labor per floor. And as we have used it more, we are saving even more time and money. We saved \$90,000 on one job alone. I would have never believed it".

"I don't box on metal or plastic bead - it takes too much mud and the box runs out so fast. NO-COAT is smooth and consistent and uses so much less mud. I'm done in half the time it would have taken with metal or plastic bead."

"No matter what we used or did, we always had cracking and we had a 80% callback rate. It was a fact of business. We switched to NO-COAT and 200 houses later, our callback rate is zero."

When finishing off-angles, archways, inside or outside corners, NO-COAT® offers a complete corner system for every job. Refer to the matrix below for recommended applications:

	Off Angles	Inside Corners	Outside Corners	Archways	Industrial Applications	Large Gaps	Vaults, Soffits	Window Returns, Door Jambs, Drop Ceilings, etc.	Long Spans Over 3m	Short Spans Under 3m

NO-COAT® Structural Laminate Drywall Corner System

ULTRAFLEX®

These flex roll products are ideal for off-angle applications, both short and long runs, long columns and soffits. Wide flange covers large gaps and poor framing. Built-in flexible hinge fits any inside or outside corner angle and creates crisp, straight lines.

ULTRAFLEX 325
82mm wide x 30.5m roll

ULTRAFLEX 450
115mm wide x 30.5m roll

ZOOMA-FLEX
54mm wide x 30.5m roll

ULTRATRIM®

ULTRATRIM pre-cut stick lengths withstand severe impacts, settling and seismic movements without cracking, denting, chipping or peeling. Easy to install lengths deliver perfect corners in record time.

INSIDE 90
2.4 & 3.0m

OUTSIDE 90
2.4 & 3.0m

13mm L TRIM
3m

10mm L TRIM
3.0m

10mm BULLNOSE
2.4 & 3.0m

19mm BULLNOSE
2.4 & 3.0m

ULTRA ARCH®

ULTRA ARCH tape-on arches have notched flanges that flex and conform to any arch. Stiff profile fine-tunes poor framing and creates a perfectly smooth, round curve.

OUTSIDE 90
3.0m

ULTRATOOLS™

NO-COAT rollers and applicators allow for high speed installations and flawless results.

OUTSIDE 90 ROLLER

BULLNOSE ROLLER

INSIDE 90 ROLLER

Stainless steel gates accommodate off-angles, bullnose, inside and outside 90's.

DOUBLE BARREL HOPPER

HOPPER FLEX BRACKET
(optional)
