

# FibaFuse

## Mould Resistant FibaFuse

*The Alternative to Paper Tape*

FibaFuse is a revolutionary paperless plasterboard tape made from glass matte fibres. This innovative alternative to paper tape will give you a smooth finish eliminating blisters and bubbles that can occur with traditional paper tape.

The wide 150mm and 914mm width rolls could save you time replacing plasterboard sheets as they are perfect for patching and repairing large areas that are damaged due to cracking, old plaster or wallpaper removal.

The 50mm width rolls are designed to use on joints and corners with the open structure of the fibres creating greater joint compound penetration resulting in a superior bond and a stronger joint. Installation is easy, either by hand or can be applied more efficiently with **Automatic Tools** like the **Tapepro Mud Boxes** or **Automatic Taper**.

Code	Description	Barcode
15-8201	50mm x 75m	038662931172
15-8202	150mm x 22m	038662931936
15-8205	914mm x 45m	038662101209
