FIRE RATED ACCESS PANELS

“ 1 hour fire rated access panels are suitable for lightweight ceilings and walls up to and including FRL 60/60/60. For ceiling installation ensure the supporting framework is independently supported with hangers from the building structure and the access panel weight is not carried by the ceiling. ”

1 HOUR FRL 60/60/60

1 hour fire rated access panels are designed to sit flush with the ceiling or wall surface leaving a narrow opening joint around the face. The access panel is secured with a locking key or can be individually keyed for maximum security.

- Heavy duty frame
- Square keyed lock
- Quality hinges
- Safety chain

2 HOUR FRL 120/120/120

2 Hour fire rated access panels are a screw fixed access panel with a laminated MDF face. They are designed to meet the requirements of the BCA with FRL's of 120/120/120 and 60/60/60.

“ APF2 panels are suitable for masonry and lightweight ceiling and wall systems up to and including FRL 120/120/120. It's important to note, the clear opening size is reduced by 30mm all round to allow for the fixing angle. ”

- Heavy duty frame
- 3mm gap all round
- Screw fixed face
- Acoustic seal
