# Quick & Easy Access to Ceilings

Wallboard's Aluminium Manhole Frames have a low profile design and they can be installed in just minutes, for a quick and easy solution to ceiling access.

- Aluminium T- bar section
- Low profile design
- White powder coating
- Hole for screw location
- Installation takes minutes

Installation Instructions

1. Identify the panel cut out size from the table below
2. Measure and mark the placement of the manhole frame
3. Cut the opening in the sheeting using a keyhole saw or cut out tool
4. Install the frame between ceiling members – pack out if necessary
5. Secure the frame with fasteners screwed through the fixing holes
6. Trim the cut piece of sheet remaining from step 3 as a cover
