

LEVELLINE[®]

DRYWALL CORNER TRIM

Tapered Profile design - makes finishing fast & easy. Outperforms flat flex at every angle.

Perfect for:

- Outside/inside corners
- Off-angles
- Tray ceilings
- Bay windows

- Tapered Plastic Core is indestructible - will not split or dent
- Joint Tape permanently bonds corner to plasterboard
- Memory-Free Hinge adjusts to any angle, eliminates pre-creasing, pre-measuring & allows instant application
- Formulated Surface Paper accepts any finish & resists abrasion

EASY-to-use applicator box design!

Built-in handles provide quick & easy application right out of the box!

Our easy-to-use applicator box allows for instant application right out of the box. Eliminates pre-creasing and pre-measuring – instantly adjusts to any angle.

Comes in a convenient:
68mm Wide x 30.5m Roll
12 Rolls per carton

Tapered Profile Design makes finishing fast & easy. Outperforms flat flex at every angle.

Tired of your flex...

- Popping off the walls?
- Cracking?
- Blistering?

Spending too much time...

- Pre-creasing?
- Pre-measuring?
- Applying excessive mud?

LEVELLINE's® Tapered Profile Design eliminates installation headaches and callbacks. Installing off-angles, inside and outside corners is faster and easier with LEVELLINE's tapered flex design and new applicator box. Our flex goes straight from the box or roll onto the wall, and requires less mud to apply and finish.

LEVELLINE's superior corner construction (tapered plastic core, joint tape and formulated surface paper) ensures corners will not split or dent. LEVELLINE can also withstand structural settling from green lumber and seismic movement without cracking or popping off the wall.

OUTPERFORMS FLAT FLEX AT EVERY ANGLE, ON ANY CORNER.
