Twist your handle –
not your body!

TSP

FHX-T

TWISTER SWIVEL HANDLE™

The Twister Swivel Plate (TSP) allows you to operate your Flat Box using a more comfortable and ergonomic body position.

Finishing joints at 600mm, 1800mm, or even 2400mm with a traditional Flat Box handle is punishing. Twister swivels to suit you reducing stress on your body and fatigue.

The Twister Swivel Plate can be purchased separately (TSP) and retro fitted to any existing Tapepro Flat Box Handle or as a new Twister Extendable Flat Box Handle (FHX-T).

Features and Benefits:

- Normal FHX Handle - extends from 980 to 1600mm (4 positions)
- FH001 Connector Plate replaced with TSP Twister™ Swivel Plate
- Adjustable friction setting using star wheel
- FHX-T weighs 1.5kg
- TSP Swivel Plate available as retrofit kit for traditional and extendable Flat Box Handles

Code	Description	Barcode
TSP	Twister Swivel Plate	9315778000321
FHX-T	Twister Extendable Flat Box Handle	9315778000314
